STUDENT'S CAPACITY BUILDING PROGRAMMES

SCBPI06

Innovative Educator's Toolkit

Expected Outcome

The 'Innovative Educator's Toolkit' training program aims to significantly enhance teachers' capabilities in integrating modern teaching aids into their classrooms.

Chart & Model Preparation Training for 2023-25 Mathematics Education Students

The workshop on Improvised Aids Charts and Model Preparation provided participants with valuable skills and knowledge in creating effective visual aids for presentations and demonstrations. Participants learned various techniques for designing and constructing low-cost, readily available aids using everyday materials such as paper, cardboard, plastic, and natural resources. The workshop emphasized creativity and resourcefulness, encouraging participants to think outside the box and develop unique and engaging visual aids.

Chart Preparation Training for 2023-25 physical Science Education Students

Chart Preparation Training for 2023-25 English Education Students

Improved aids charts and models can significantly enhance student learning by making abstract concepts more concrete and engaging. These visual aids can capture students' attention, improve understanding, and facilitate better retention of information, ultimately leading to more effective and impactful teaching.

Chart preparation training for Natural Science Education students

The workshop proved to be highly beneficial for students, teachers, researchers, and professionals who require effective visual communication skills for presentations, teaching, and research purposes.

Model and Chart preparation training for Commerce Education students
