Expected Outcome

They demonstrated their social sensitivity by tutoring weaker students. This initiative not only helped improve academic performance but also fostered a sense of community and support.

2023-25 Batch Students Helping Academically weak students

The "Sparsham" initiative demonstrated remarkable success in fostering a sense of community and academic growth. By dedicating their time to tutoring weaker students, participants not only improved the academic performance of their peers but also cultivated valuable social sensitivity and leadership skills. This initiative exemplifies the positive impact that peer-to-peer support can have on a learning environment, creating a more inclusive and supportive atmosphere for all students.
