Expected Outcome

The goal of this programme is to equip students with the knowledge about the health impacts of drug abuse on physique, mental health, family health and social healths. By training teachers, the program seeks to improve their competence, confidence and commitment in delivering effective drug abuse prevention education.

Anti-Drug Campaign - Exhibition , 28/12/24

The Anti-Drug Campaign Exhibition was a powerful and impactful event that effectively raised awareness about the dangers of substance abuse within the community. The exhibition featured a diverse range of informative displays, including visually engaging posters and pamphlets, interactive exhibits that allowed visitors to learn about the science of addiction, and moving testimonies from individuals who have overcome drug addiction. Resource booths provided valuable information and guidance to those seeking help or support. By effectively reaching a wide audience and sparking important conversations, the exhibition played a crucial role in educating the community about the dangers of substance abuse and promoting healthy, drug-free lifestyles.

Leaflet Distribution

The drama session against drug abuse was a powerful and impactful event that effectively conveyed the dangers and consequences of substance abuse. Through compelling storytelling and emotive performances, the play shed light on the devastating effects of drugs on individuals, families, and society as a whole. The actors skillfully portrayed the physical, emotional, and psychological toll of addiction, leaving a lasting impression on the audience. The session also highlighted the importance of seeking help and support for those struggling with substance abuse, emphasizing the availability of resources and the possibility of recovery. The drama served as a strong reminder of the importance of making informed choices and leading healthy, drug-free lives.
